About Company

Cubit - our journey began in 2003 and today we have more than 400 brands in India. We have expanded our Pharma product portfolio to include Cardio/ Diabetic/ CNS/ Psychiatric/ Derma/ Optha and Gynaec divisions.

We have a pan-India presence for our products with a robust marketing network of distributors, regional sales managers, marketing representatives and C&F Agents. We export to more than 18 countries and newer markets are being added.

Our deep understanding of the needs of the medical fraternity has encouraged us to expand into nutraceuticals and medical & surgical devices.

Cubit Medisurge LLP, manufacturer of disposable medical and surgical devices, have a state-of-the-art manufacturing facility with latest technology for manufacturing best quality products. Our mission is to establish Cubit Medisurge as a prominent and trusted brand for medical devices and disposables.

Cubit is renowned for high quality products and our goal is to strive towards zero defect approach to provide products with high precision. Minute care is taken at every step of the manufacturing process, from sourcing of raw material to production, inspection, packaging, and sterilization.

We have a dedicated team of technical professionals who ensure that our products are designed and developed to conform to the highest international standards.

We have a well-established laboratory for conducting physicochemical, micro-biological, toxicity and sterility tests.
